did.

It now develops that the Che-

It has been discovered that
about two-thirds of the new people
who have bought land and settled
in this country within the last
three years are democrats and the
republicans have lost heavily to
the departure of sell outs. Kan-
sas republicans never stay long in
a place. They are on the road in
prairie schooners half of the time
haunting something for nothing.

NEW COTTON FACTORY

The Independence, Kan., Mills
Want to Locate Here.

They Employ 50 or 60 Men

An Enterprise Which If Added
to Our City Will Greatly
Increase Its Busi-
ness Interests.

Chickasha has an opportunity
to secure one of the largest cot-
ton mills in this country, and the
matter has already been brought
to the attention of our citizens.
The Kansas Cotton Trust Co.,
lessees of the Kansas Cotton
Mill, now located at Independence,
Kansas, have decided to get into a
cotton country just as soon as
they can leave their present quar-
ters, and they have written to
parties in Chickasha in regard to
coming here.

The mill consists of something
over 2,000 spindles, and its output
is 8,000 bales of cotton per week.
They work from forty to sixty per
cent, and the weekly payroll adds
not a little to the income of the
town. They use from 1,000 to
1,200 bales of cotton a year, and
manufacture not only twine, but
cotton batting, millers' twine, etc.,
and warp and sewing twine.

The mill first located at Inde-
pendence, Kan., which is in the
natural gas belt, on account of the
cheapness in the price of fuel; but
the managers have found out that
does not offset the advantages of
being in a cotton country, near
the raw material, where there is no
expense of shipping it to the facto-
ry. Some months ago, therefore,
they decided to change their loca-
tion, and even went so far as to
partially enter into a contract with
a certain town to locate there.
The town agreed to give them a
building site and a certain bonus,
but when it came to a show-down
were unable to deliver the goods.
Since then the matter has been
hung up in that shape, but the
owners of the mill have begun
casting about for another lo-
cation, and would like to come
to Chickasha.

A meeting of the Commercial
club has been called to consider
the matter, and this body will no
doubt send a committee to Inde-
pendence to examine the plant as
to its condition, desirability, etc.,
and report back at its earliest op-
portunity. Here is a splendid op-
portunity to secure a splendid en-
terprise for our little city, and
we should not let it pass by with-
out some effort.

The Chickasha legislature will
meet next Monday. As the new
legislature is to be installed, and
they are to decide the gubernato-
rial contest in the nation, there is
ample promise of a lot of fun.
